Bioformix, Inc. Announces New CEO, Chief Commercial Officer and Chief Innovation Officer

Organizational changes designed to accelerate company's growth efforts

Cincinnati (December 2013) – Bioformix, Inc., a manufacturer of energy efficient, high-performance, sustainable polymer platforms, has named a new CEO, Chief Commercial Officer and Chief Innovation Officer. The changes allow the company to focus on its expanding portfolio of products and services, development of new technologies and subsequent commercialization.

Jeff Uhrig has been named CEO of the company. Uhrig joined Bioformix in August 2013 as the Senior Vice President of Corporate Strategy. Kousay Said, previously the Senior Vice President of Commercial Development, is now the Chief Commercial Officer. He is tasked with broadening Bioformix's sales efforts and the strategic commercialization of the company's products, including the revolutionary Nexabond™ 2500 Instant Wood Adhesive. Adam Malofsky is now the Chief Innovation Officer. Malofsky will focus his efforts on the cultivation of new product applications using Bioformix technology platforms.

"These changes allow us to transition from developing transformative monomers to commercializing our products and identifying novel applications for our innovative technologies," says Jeff Uhrig, CEO of Bioformix, Inc.

About Bioformix, Inc.

Founded in 2009, Bioformix, Inc. was formed to commercialize energy efficient, high-performance, sustainable monomers, resins and polymers. Bioformix intends to reduce or eliminate energy consumption in polymer based manufacturing, decorating and assembly. For more information, visit www.bioformix.com.
