Bioformix, Inc. Recognized as Finalist in 2012 Best Places to Work Competition

Cincinnati (November 2012) – Bioformix, Inc., a manufacturer of sustainable adhesives for wood and other applications, was recently recognized as a finalist in the Cincinnati Business Courier’s “Best Places to Work” competition. The program recognizes top Cincinnati companies that promote employee friendly practices such as a healthy, stress-free workplace, excellent benefits and advancement opportunities. Winners were announced on November 1, 2012 at the Duke Energy Center in Cincinnati.

One of 66 finalists, Bioformix, Inc. was recognized, in part, for its attention to employee well-being. The company, which employs 18 locally, offers a healthy breakfast and lunch to all staff members on a daily basis and encourages employees to eat together as a team. To promote mental well-being, the company offers weekly yoga sessions and has common sitting areas where employees can relax. Employees also have access to an on-site physical fitness facility.

Bioformix, Inc. rewards employees with a generous vacation policy, compensating team members for long work hours by allowing them to take leave as needed. The company also pays for staff members to participate in educational opportunities, such as conferences and webinars.

Founder, president and CEO Adam Malofsky commented, “We are proud to be a finalist in the Best Places to Work competition. As a young and fast-growing company, Bioformix pays careful attention to maintaining a safe, fun and inspirational work environment for all employees. We value the work our employees provide for us and reward their effort.”

About Bioformix, Inc.

Founded in 2009 by president and CEO Adam Malofsky and his father, Bernard Malofsky, PHD, Bioformix, Inc. was formed to commercialize energy efficient, high-performance, sustainable monomers, resins and polymers. Venture capital backed by over \$500 billion in revenue companies, Bioformix will transform energy consumption in polymer based manufacturing, decorating and assembly. The company is currently best known for its revolutionary Nexabond™ 2500 Instant Wood Adhesive, a quick curing, water-free, super durable, instant wood adhesive that allows for a 75% reduction in cabinet assembly times.
